KETAN MAHAJAN

SOFTWARE DEVELOPER

SUMMARY

Software Developer with 3+ years of experience in an IT industry leveraging expertise in microservices and application development, management, maintenance, automation and proficiency in programming languages (Java, Python and Ruby). Expertise in designing and developing web-based enterprise applications using J2EE technologies like Servlets, JSP, Spring, JDBC, JNDI, Spring Boot, JAXB, Web services, JSON, Elastic Search. Expertise in Software Development Life Cycle (SDLC) phases including Analysis, Design, Implementation, Testing and Maintenance.

EXPERIENCE

SOFTWARE DEVELOPER

 **Blakol Studios, Bangalore**  **Mar 2018 – Till date**

Working on a knowledge management system where one can create and manage corporate policy documents with an intuitive easy-to-use a web-based editor. Provides collaborative editing and can manage the versioning of the documents. Powered by Natural Language Process (NLP) to analyze and search the documents. Data analytics along with NLP provides an interactive interface to the documents to find the relevant information and the relation with the business application.

SYSTEMS ENGINEER

 **Infosys Ltd. Pune**  **Nov 2016 - Mar 2018**

Designed an automated process for incident management, maintenance, data extraction. Developed a tool to handle various unexpected events of service and shorten the incident lifecycle and reduce outages.

TECHNICAL SKILLSET:

- **Programming Languages:**

Java

Python

Ruby

- **Tools/Frameworks:**

Spring Boot

Hibernate

Micro-Services

Maven

Log4j

JUnit

MVC Architecture

- **IDEs/Tools:**

Eclipse

IntelliJ

Atom

VS Code

JIRA

GIT

SVN

Bitbucket

- **WEB Technologies:**

AngularJS

HTML5

Bootstrap

- **Databases:**

DB2

MySQL
